Retainer Service Agreement

Over the years there has been one big problem associated with retainers.....**losing them**. This has always been a concern and becomes a big investment should the retainers be lost or broken. If the retainers are lost and not replaced in a short period of time, the teeth will begin to move which means some sort of treatment will be needed to fix them. It is always a disappointment to see all of that work, not to mention to financial investment, go to waste.

Due to a great number of requests about insurance for retainers, we have now developed a **Retainer Service Agreement**. This works like health insurance or automobile insurance in that you must purchase the policy before the retainers are lost or broken and you must renew it each year. We cannot give you the insurance after the fact, and it is not a refundable premium.

Replacement wire retainers cost \$195 each. Replacement fees with the service is \$75. That is a great savings.

To enroll, simply complete the bottom of this letter and mail it, with your premium in the envelope provided. **Coverage begins on the date of retainer insertion and continues for one year.**

While your retainer protects your smile, the Retainer Service Agreement can protect your bank account. This is an added service that we are very happy to provide at the request of our patients.

Patient's Name: _____

Address: _____

_____ **Enclosed is a check for \$85.00 premium for the Retainer Service Agreement.**
